A WORLD-CHANGING PREP SCHOOL SINCE 1882

WARDLAW + HARTRIDGE

Pioneering. Thinkers.

THE MIDDLE SCHOOL

"The best part is the feeling of sharing an *Aha!* moment with a student. These moments are fantastically frequent at W+H. It's what we live for.

Corinna Crafton, Ed.D.
Head of The Middle School

How we are different

Our responsiveness and adaptability to individual student needs sets us apart from other middle schools. We are not blindly beholden to mandated testing in the face of our own rapidly evolving understanding of how children's brains work and how they learn best. The Middle School is empowered to respond to the interests, needs, talents, skills, dreams, and passions of each student. Honoring a student's individuality is something we practice every day. It's why we're here.

*Students packed 4,000 pounds of food at the Central NJ Food Bank in 2017.

World-Changing Prep School

Welcome

The Middle School is an amazing place where girls and boys embrace their individuality, cultivate their self-confidence, and discover the one-in-a-zillion talents and gifts that make them *them*.

This is a special place. Our students are inquisitive, eager, collaborative, and accepting. Our girls and boys strive not only for success in academic pursuits, but for happiness and fulfillment in their lives, too. Wondering, exploring, learning, persevering, achieving, and triumphing are all part of a student's journey, and these things happen here, every day.

*100% of our students present a formal speech every year.

Remember

+ We are passionate about building trusting relationships with each student.
+ We deeply value our relationships with all of our families.
+ We are committed to the development of integrity in our students. Beyond just grades and academic achievement, we believe that character counts.
